We run tenant outreach across London and its commuter belt using a network of accounts, each searching a named area within roughly a 5 km radius. Coverage spans **South London** (the established South boroughs) and **North London** (the commuter-belt towns ringing the capital — our best-converting areas). The next page maps our coverage; the detailed area-by-area breakdown follows in the tables.

Recently strengthened (August 2026)

We recently re-focused several accounts onto our highest-value neighbourhoods: **Greenwich** and **Hanworth** (two of our strongest lead-generating areas) were given dedicated coverage, and the **Clapham / Wandsworth / Tooting** south-west corridor and **Peckham** were reinforced. The **North London commuter-belt** network — our highest-converting areas — remains fully active.

■ See the full coverage map on the next page, with the area-by-area detail in the tables that follow.

Coverage — South London Boroughs & North London / Commuter Belt

Green = South London boroughs (covered) · Blue = North London / commuter-belt districts (covered) · Amber = expansion-roadmap boroughs · Grey = not targeted · **Red / yellow outlines = the target focus zones** (Greater London / commuter belt)

Currently covering — South London (established boroughs)

Area	New listings / month	Phone numbers captured
Woolwich	782	22
Hanworth (West)	682	107
Greenwich	564	106
Upper Norwood	562	100
Peckham	263	27
Lewisham	211	87
Wandsworth	209	29
Tooting	146	19
Kingston upon Thames	143	68
Clapham	141	8
Bexleyheath	128	84
Sutton	39	14
Bexley	38	5
Purley	36	12
Croydon	28	3
Mitcham	15	11
Green St Green	7	4
Sidcup	3	3

Currently covering — North London (commuter belt)

Area	New listings / month	Phone numbers captured
Brentwood	751	71
Borehamwood	707	39
Chigwell	595	59
Harlow / Roydon	244	30
Welwyn	239	29
Wooburn Green	204	31
Berkhamsted	151	22
Great Missenden	139	23
Epping	77	5
Ongar	48	8

Scaling to full coverage of the focus zone (red + yellow)

To cover **every** area inside the red (Greater London) and yellow (commuter belt) focus zones, the fleet would need to scale roughly as shown below. Basis: one SIM sustains ~8 landlord contacts per day (~45 new listings / week). Our calibration point: South London (12 boroughs, ~760 listings/week) is covered by ~17 SIMs today.

Zone	Est. new listings / week	SIMs for full coverage
Greater London (red zone)	~2,200	~50
Commuter belt (yellow zone)	~1,300	~30
Total focus zone	~3,500	~80
Currently deployed	~720 capacity	16

Full coverage is a phased scale-up from today's **16 SIMs to ~80** — roughly 5× the current fleet. Figures are approximate; the commuter-belt estimate is the softest as several towns are not yet actively searched.

Not yet covered — expansion roadmap (inside the focus zone)

These areas sit inside the red / yellow focus zones but are not yet covered — the priority runway as the fleet scales from 16 toward ~80 SIMs. Grouped by zone:

Zone	Priority areas (not yet covered)
Greater London — North & East	Wood Green, Tottenham, Stratford, Walthamstow, Hackney, Enfield, Ilford, Romford
Greater London — West & Central	Ealing, Fulham, Hammersmith, Brent, Harrow, Islington, Camden
Greater London — South gaps	Brixton, Streatham, Balham, Catford, New Cross, Putney, Wimbledon
Commuter belt — North	Luton, St Albans, Watford, Hemel Hempstead
Commuter belt — East	Hertford, Broxbourne, Chelmsford, Basildon
Commuter belt — West / SW	Slough, Maidenhead, Reading, Guildford, Woking

Prepared August 2026. Listing volumes are recent monthly averages; lead totals are cumulative landlord phone numbers acquired. Coverage radius is approximate.
